

The Future of Audio

SENNHEISER CONTROL COCKPIT

Everything
under control

Sennheiser Control Cockpit

Your new digital workflows

Sennheiser Control Cockpit is the central software for easy handling, control and maintenance. Manage the entire SpeechLine Digital Wireless portfolio, evolution wireless G3 and G4, Digital 6000 microphone systems and TeamConnect Ceiling 2. The easy-to-use Sennheiser Control Cockpit provides a global overview of all network-enabled devices at all times. It shows all status information at a glance and makes setting adjustments for one or multiple devices at the same time very easy.

Setup

- Device discovery & device management
- Initial device configuration
- Notification services
- Setup & security settings
